About Me

Passionate front-end web developer with 2 years of experience in creating dynamic, user-friendly interfaces. Currently expanding skill set to become a full-stack developer with a keen interest in integrating both front-end and back-end technologies.

Experience

Humedit Philippines WordPress Developer

April 2025 - Present

- Maintain and optimize WordPress websites
- Build custom WordPress themes and plugins
- Monitor performance using GSC, PageSpeed, Ahrefs, and Semrush
- Manage website content via the WordPress CMS
- Collaborate with PH and JP teams on website functionality

Proweaver Inc. Front-End / WordPress Developer

June 2022 - Sept 2024

- Converted design mockups into functional websites (HTML, CSS, JS, WordPress)
- Developed responsive and cross-browser interfaces
- Customized WordPress themes and CMS features
- Coordinated with design and dev teams for smooth project delivery
- Trained new hires on front-end best practices
